IVGT

Industrial Association for
Finishing - Yarns - Fabrics - Technical Textiles
IVGT is Germany’s largest network of Technical Textile producers and suppliers of fibers, machines and services.
**IVGT** members represent 60% of Germany’s textile industry with over 35,200 employees.
The Suppliers Guide Technical-Textiles-Germany covers over 70 textile technologies and 12 application market segments.
It is not the strongest of the species that survives, nor the most intelligent, but the one most adaptable to change.

Prof. Leon C. Megginson, LSU 1960-1977, Chair Academy of Management 1983
